The authors would like to correct an error in a recent published paper [1]. Due to the misunderstanding of the study number and ISRCTN number, the authors reported the ISRCTN number incorrectly. The '(ISRCTN 37866)' has been changed to '(ISRCTN65152174)' in Section 2.1. The ISRCTN number has also been changed in the 'Funding' and 'Acknowledgements' section of the manuscript.

The authors apologize for any inconvenience caused to the readers by the change. The change does not affect the scientific results.

Conflicts of Interest: The authors declare no conflict of interest.
